

<b>Writing</b>	<b>Science</b>	Understand geographical similarities and differences through the study of human and physical geography of a region or area in a European country.
<b>Narrative</b>	<b>Biology</b>	
Write stories that contain mythical, legendary or historical characters or events.	<b>Plants</b>	Describe and understand key aspects of:
Write plays.	Look at the function of parts of flowering plants, requirements of growth, water transportation in plants, life cycles and seed dispersal.	- physical geography, including: climate zones, biomes and vegetation belts, rivers, mountains, volcanoes and earthquakes and the water cycle
<b>Non-fiction</b>	Evolution and inheritance	
Write persuasively.	<b>All living things</b>	- human geography, including: settlements, land use, economic activity including trade links and the distribution of natural resources including energy, food, minerals and water supplies.
Write explanations.	Identify and name plants and animals'	
<b>Poetry</b>	Look at classification keys.	
Learn by heart and perform a significant poem.	Look at the life cycle of animals and plants.	Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.
<b>Reading</b>	Look at classification of plants, animals and micro organisms.	
Listen to and discuss a wide range of texts.	Look at reproduction in plants and animals, and human growth and changes.	
Learn poetry by heart.	<b>Chemistry</b>	
Increase familiarity with a wide range of books, including myths and legends, traditional stories, modern fiction, classic British fiction and books from other cultures.	<b>Rocks and fossils</b>	<b>History</b>
Take part in conversations about books.	Compare and group rocks and describe the formation of fossils.	The Roman Empire and its Impact on Britain.
Use the school and community libraries.	<b>Art &amp; Design</b>	<b>Language</b>
Read and listen to whole books.	Develop and share ideas in a sketchbook and in finished products.	In the chosen modern language:
<b>Mathematics</b>	Improve mastery of techniques.	- Speak
Count and calculate in increasingly complex contexts, including those that cannot be experienced first hand.	<b>Computing</b>	- Read
Rigorously apply mathematical knowledge across the curriculum, in particular in science, technology and computing.	Use sequence, selections and repetition in programs; work with variables and various forms of input and output; generate appropriate inputs and predicted outputs to test programs.	- Write.
Deepen conceptual understanding of mathematics by frequent repetition and extension of key concepts in a range of engaging and purposeful contexts.	Use logical reasoning to explain how a simple algorithm works, detect and correct errors in algorithms and programs.	Look at the culture of the countries where the language is spoken.
Explore numbers and place value so as to read and understand the value of all numbers.	Describe how internet search engines find and store data; use search engines effectively; be discerning in evaluating digital content; respect individuals and intellectual property; use technology responsibly, securely and safely.	<b>Music</b>
Add and subtract using efficient mental and formal written methods.	<b>Design &amp; Technology</b>	Play and perform in solo and ensemble contexts, using voice and playing instruments with increasing accuracy, control and expression.
Multiply and divide using efficient mental and formal written methods.	<b>Evaluate</b>	Use and understand the basics of the stave and other musical notations.
Use the properties of shapes and angles in increasingly complex and practical contexts, including in construction and engineering contexts.	Understand how key events and individuals in design and technology have helped shape the world	Appreciate and understand a wide range of high-quality live and recorded music from different traditions and from great musicians and composers.
Use and apply measures to increasingly complex contexts.	<b>Geography</b>	<b>Physical Education</b>
Gather, organise and interrogate data.	Locate the world's countries, with focus on North and South America and countries of particular interest to pupils.	Play competitive games, modified where appropriate, such as football, netball, rounders, cricket, hockey, basketball, badminton and tennis and apply basic principles suitable for attacking and defending.
Understand the practical value of using algebra.		Perform dances.
		<b>Religious Education</b>
		Study the beliefs, festivals and celebrations of Christianity.
		Study at least two other religions in depth. Choose from Buddhism, Hinduism, Islam, Judaism or Sikhism.
