**Comments**

- The DfE SFR (Statistical First Release document) states that 'because of the changes in 2016 (the new more challenging national curriculum and raised standards, new tests and assessment frameworks), figures for 2016 are not comparable to those for earlier years.' For analysis and accountability purposes this year, figures should be compared with national & local results and between different groups, rather than over time
- We are very proud of our excellent results! We judge them to be outstanding (so continuing our trend of outstanding outcomes at KS1 over the last 3 years) because...
- Our school exceeds well above the national & county figures, including in achievement of the higher standard across all subjects at KS1
